Novena to St. Luke
For Deacon Steve

About St. Luke:

St. Luke was a Gentile physician from Antioch whom St. Paul affectionately called "the beloved physician". He first joined Paul's missionary team in Troas and traveled with him on many apostolic journeys, offering both medical care and spiritual support to early Christian communities. His physician's eye for detail is evident in his precise descriptions of Christ's healings, the journeys of Paul, and the workings of the early Church. Luke's life exemplifies the harmony of science and faith: he healed bodies in Christ's name and nourished souls with the Good News. Tradition holds that he later evangelized in Greece and was martyred at age ninety-four.
